Youtube is a easy way to say our thinks in video format

It is also one famous site of GOOGLE

It is big way of entertainment and knowledge growthing library of all peoples

It all type of video like study,comedy, work

I love Youtube,it's entertained me many time so,I think to make a Youtube channel

It is a one way of earing money and subscribers

It is not only a video sharing and watching place.

I know about the people liking topics and do my best work to earn many subscribers

youtuber

I like video making,so I also make Youtube channel

So I now earn many subscribers and money.

Now I am also the vloger in this Youtube I also create channel and make different videos

My feeling about the YouTube is good and bad also...

There are lot of different emotions are i see in this Youtube.

Youtube has millions of channels that has many good and bad contents are posting...

I feel very must for use all sources.
