

Says

If many types of video's like study, entertainment and working.

Youtupe is a esay way to say our thinks in video formate

It is a one of the famous video sharing company in the world

I like youtube its entertain me all time so, i want to make channel in YouTube

It is a way of earn subscribers and money

Iknow about the people liking topics and do my best work to eran many subscribers

It is not only a video sharching and watching

Thinks •

I like video making. So I also make youtupe channel

Now i am also the vloger in youtube also create channel and make different videos

Does

So i now earn many subscribers and money

My feel about youtube is good...

Youtube has many type of videos in good and bad contents are post.

There are lot of different emotions are in the website.

Different types of videos but we take only good contents

Feels

What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?
